

PROCRIT®

EPOETIN ALFA

Charlie Riggs "Home Brew Sig."

- ① Crack open a cold one.
- ② Dump $3\frac{1}{2}$ gallons of water into a bucket.
- ③ Stir in 1 tablespoon of sodium silicate and/or soda ash.
- ④ Mix in 17lbs of xx sugar OR 9lbs OM4. & put bucket up on a table.
- ⑤ Finish your cold one and wait a day (20 hours).
- ⑥ Syphon off the top 1 gallon (including little bit of water @ top) Use immediately or store for years.

Release the rest back to the wild.

P.S. don't worry about foam on top if using OM4.
